

Waseca Area Foundation Neutrality Policy

The Waseca Area Foundation is committed to serving our community from a non-political point of view. This means that our participation in any organization as a dues-paying member would require that organization not to take part in any national, state, and/or local political activities that could be perceived to be partisan in nature.

The decision to avoid membership in organizations unable to present a neutral point-of-view avoids creating difficulty for philanthropists in their decision-making in regard to investments, donations, or memorials, given to the Waseca Area Foundation.

Therefore, this neutrality policy states that the Waseca Area Foundation will not participate as a dues-paying member of any organization that contributes to local, state, or national political activities or could be perceived as partisan in nature.

Adopted: September 28, 2011.
